

## Client Testimonials

"A life saver! We wound up reformatting our drive after faulty info from a major computer manufacturer. RDB had us up and running overnight. We were able to save all our client files."

- John Reggio, Sign-A-Rama of Old Bridge, NJ

"RDB saved me a bunch of headaches by being able to restore the system configuration of a few days back in 10 minutes after installing something that didn't agree with my computer."

- TJ Bass, Handyman Matters of Round Rock, TX

"Within hours of having to replace my hard drive I had every scrap of data restored exactly as it was before the crash. Without this system I would have spent countless hours, perhaps days, putting my business life back together... it's worth every penny."

- Ken Thompson, Adventures in Advertising of San Joaquin, CA

"A new employee had managed to change a large amount of records in the database accidentally with incorrect information. Luckily for us they store the last 10 versions."

- Jason Webber, Help-U-Sell of Castle Rock, CO

"No longer do we have to hassle with the daily tape back up and weekly cleaning of the tape drive. Replacing those tapes every six months was getting costly, that's if we could locate them!"

- Steven Bejarano, Handyman Connection of Detroit, MI

"It is much more cost effective and reliable than manually using tape, zip, Jazz, CD or DVD drives."

- Dan Harrison, IS Manager, Budget Blinds HQ

"This backup service is truly on the cutting edge! It was so simple and direct! We were truly impressed."

- Ted Davis, CPA, Davis Accounting of Cedar City, UT

"I highly recommend it for its ease of use, flexibility, and the ability to access files from any computer with Internet access."

- Rodney Givens, CFO Today of Tallahassee, FL

## Data Loss Risks

Remote Data Backups provides the best solution for safeguarding your computer against a full range of common data loss and system failure risks including:

- **Technical Disasters**

Computer viruses & worms, hard drive crash & failure, PC power failure, backup media degradation, system updates, service packs, etc.

- **Human Disasters**

Accidental changes or deletions, theft (especially laptops), disgruntled employees, etc.

- **Natural Disasters**

Fire, flood, hurricanes, tornadoes, earthquakes, lightning, solar flares, freaks of nature, etc.

- **Laptop Disasters**

Laptops can easily overheat, suffer hard drive failures or power outages, and are frequently dropped and damaged, lost and stolen.

Traditional backup methods (Tape, Zip & External Drives, CDs & DVDs) can't reliably protect your data against all these common data loss risks -- only RDB can!

## Files to Protect

You need to back up all your mission critical files daily. Can you afford to lose your financial and accounting files, sales records, contacts, email messages, databases, etc.?

 Outlook	 Outlook Express	 ACT!	 Lotus Notes
 Quicken	 QuickBooks	 PeachTree	 MS Money
 My Documents	 Microsoft Word	 MS PowerPoint	 Favorites
 MS Access	 MS SQL Server	 Microsoft Excel	 TurboTax

## Avoid Data Loss & Downtime

We make it easy and affordable for you to reliably protect all your important files from the costly effects of data loss and downtime.

## Service Advantages

Remote Data Backups is the most cost effective, secure, and convenient way to automatically back up your mission critical data offsite every night.

Enjoy peace of mind knowing that if the unexpected happens, your data is safe and secure offsite at our two state-of-the-art, mirrored data centers and always easily accessible to you, 24/7.

- **It's Easy**

Simple to set up, back up & restore files - the perfect solution for non-technical users;

- **It's Automated**

Nightly backups run reliably with no human intervention, saves your staff's time;

- **It's Fast**

Delta block incremental backup transmits only changes -- even works on dial-up;

- **It's Secure**

Your data is transmitted and stored using bank-level 128-bit AES encryption through Secure Socket Layer (SSL) at our two mirrored data centers with Cisco Routers, HP Servers EMC Storage Machines, redundant power and bandwidth, and top-level physical security.

- **It's Offsite**

Protects your data from viruses, fire, flood, theft, and sabotage, with 99.99% historic availability;

- **Free 24/7 Support**

No extra charges for fast, friendly & expert support; restores, bandwidth usage, etc.

- **Free 30-Day Trial**

No credit card required to start using the service unrestricted - start safeguarding your data today!

**What would you do if you suddenly lost your data?**

**How much would it cost to recover your data?**

**Would your business be able to survive?**

## The Best in Backups

Whether you are not backing up your data, or you're using an outdated or unreliable backup solution, you owe it to yourself to explore the absolute best in backup technology and service... before it's too late! Start your free trial today.

## Software Features

### Easy System Restore\*

\*Available on 10 & 30 GB plans

When your operating system malfunctions, you can easily restore it to a previous good state with just a few clicks. This unique and powerful feature more than pays for itself the very first time you need to use it. Not supported in Windows 2003 Server.

## ROI: Save Time & Money!

Our award-winning backup software is loaded with easy to use features designed to save you time and money, significantly increasing your business' productivity and efficiency while minimizing costly data loss & downtime.

### Automatic File Backup

Schedule backups to run every night, so you never have to remember to back up.

### Easy File Restores

Non-techies can quickly and easily retrieve lost or corrupted data files in minutes.

### Remote File Access\*

Convenient online access to your data files from any computer with Internet access.

### 10-File, 90 Day Rollback

"Go back in time" up to 10 versions of any backed up file, or for up to 90 days.

### Extended Archiving

We archive all files deleted off your system, by accident or deliberately, for 90 days.

### Account & File Sharing

Access and share files among computers running the Remote Data Backup software.

\* Unavailable on 100 MB plan
