

Steps to Formulate Secure Remote Work Strategy

Formulating a thorough secure remote work strategy is imperative for a business to ensure smooth operations.

Follow these 7 steps to formulate a secure remote work strategy for your business:

1

Assume threats will occur & make a list of common vulnerabilities or cyber threats.

2

Create a telework policy to define if employees can use personal devices, apps they can download, etc.

3

Encrypt communication between remote teams & company-owned systems.

4

Make sure the devices used by employees are updated with latest security software.

6

Set up a VPN to add extra layer of security against cyber threats such as Data Sniffing.

5

Implement strict user authentication protocol when employees access company resources remotely.

7

Collaborate with professional cyber security providers for updated tools & techniques against modern threats.
